

XPEL ULTIMATE PLUS™ is a high performance, self-adhesive, clear-coated aliphatic polyurethane film designed to protect automotive paint, and other surfaces, from harmful effects of stone chips and abrasion. It has exceptional elongation properties for ease of application which allows for single piece installations. **XPEL ULTIMATE PLUS™** is a very low surface energy film designed to resist staining and offers superior environmental resistance and gloss retention. The clear coat employs special elastomeric polymers that allow scratches in the surface to “heal” over time, eliminating the need for frequent polishing to maintain a just installed appearance. **XPEL ULTIMATE PLUS™** is coated with ultra-clear high performance acrylic adhesive which has excellent adhesion on a broad range of surfaces, while resisting disturbances during installation. This high performance acrylic adhesive is formulated to resist delamination, will not damage paint or leave behind residue upon removal post installation.

PRODUCT CONSTRUCTION

BASE WEIGHT (WITH LINER)
3.23 x 10⁻²g/cm² (6.62 x 10⁻²lb/ft²)

GENERAL CHARACTERISTICS
